**AND**

**CHICAGO FAMILY HEALTH CLINICS**

on ***BREAST CANCER***

**COAL RECOGNIZES**

**Dr. Horn** is dedicated to improving lives by restoring and revitalizing sexual functions for men affected by erectile dysfunction and premature ejaculations. The goal in Chicago and throughout the U.S. is to achieve a long term curative impact that does not depend on life long use of medications. Since opening up in Chicago in 2001 the Boston Medical Group (BMG) has been apart of a world wide network of medical clinics sharing information on the latest research and treatment methods for sexual dysfunctions.
